GRO – CAL MGB

Dual Calcium Turf Supplement

Quest Products LLC
Finding New Ways to Improve the Treatment of Trees and Plants.

7% N
11.25 % Ca
2.5 % Mg
0.07 % B
0.4 % CL

□ 2 x 2.5 Gallon
□ 2.5 Gallon
Net weight 12.14 lbs. gallon

Precaution: GRO – CAL MGB is a concentrated material. If applying GRO -CAL in combination with other materials, a compatibility test is recommended to avoid potential incompatibilities. GRO-CAL is a specially formulated dual liquid form of calcium chelate with added Mg to correct and enhance calcium uptake and utilization in turfgrass. Calcium is the basic building block for cell elongation and division for growth, nitrogen utilization, plant enzyme production and starch/carbohydrate production and assimilation. Calcium is not readily available in most soils and additional applications are essential for good plant health and wear tolerance.

Guaranteed Analysis
Total Nitrogen (N)..... 7.00%
1.50% Urea Nitrogen
5.50% Nitrate Nitrogen
Calcium (Ca) 11.25%
11.25 Chelated (Ca)
Magnesium (Mg) 2.50%
Boron (B)..... 0.07%
8.0% Combined Sulfur (S)
Chlorine (CL) Maximum amount 0.40%

Derived from: Urea, Calcium Nitrate, Magnesium Sulfate, Boric Acid, Calcium Chloride, Sodium Gluconate

Application	Rate	Comments
